

LIVING SOILS INTRODUCTORY WORKSHOPS

WITH COLIN SEIS, GRAEME HAND & JOEL WILLIAMS

You are invited to attend a workshop with special guest speakers and NRM South staff. Three very interesting and knowledgeable speakers at the one venue addressing those questions that you need answering.

How can grazing management be used to manage weeds, improve plant health and species diversity in pastures?

What can I do to improve soil health and improve soil carbon?

What low risk techniques both reduce my workload and improve profitability?

How can I better manage the impact of chemical use on soil health?

Can improved soil health increase drought tolerance and water holding capacity?

Workshop details:

Oatlands, 15th Nov, Oatlands RSL club 8.30 for 9.00 start close 4.00
